5. How often will you will take the trash, recycling and organics to be processed, and
6. How the garbage, recycling and organics be processed.

Please provide a complete report with detailed information on a separate sheet.

State Commercial Recycling Mandates: Compliance Requirements
Business are required to submit a Recycling Plan and Annual Diversion Report with supporting documentation. (i.e. weight tickets or recipes) Visit the city’s website at www.fairfield.ca.gov/recycling for more information. (Commercial Services)

Mandatory Commercial Recycling (AB341) – AB 341 requires that businesses have a Recycling Plan which divert a least 50% of Municipal Solid Waste (MSW) from going to the landfill.

Mandatory Organics Diversion Mandates (AB1826) – The state requires that commercial businesses must divert organic waste from the landfill. Organic waste includes landscape materials, food, food scraps and spoiled paper products.

Required Self-Haul Annual Permit Fee: See Fee Schedule Attached (Attachment A)

I agree that my property may be inspected for compliance with the Exemption Program. I also understand that reasonable notice will be given prior to inspection. I understand that failure to comply with this agreement may cause revocation of my exemption from the mandatory garbage service requirements of the City of Fairfield. I further agree to recycle 50% of all waste generated at the above listed property. I agree to keep weigh tickets from disposal and recycling and understand that proof of 50% recycling may be a requirement to the renewal of above listed property exemption.
