Annual street seal coat program continues

Fairfield, California (Saturday, August 26, 2017) - The City and its contractor, American Pavement Systems, will continue the 2017 slurry seal street improvement project in the Paradise Valley area. The work begins August 30 and is planned for completion on September 8.

Roads will have limited parking and access. Affected residents will receive notifications approximately 48 hours in advance of work in their specific areas. The notification will provide additional information to assist you and contact numbers for any questions.

Visit www.fairfield.ca.gov/sealcoat for a current posting of the dates on which specific streets will be affected.

About Fairfield's Street Improvement Program

The Public Works Department plans and manages the street improvement program, which the November 2016 voter-approved Measure P tax measure partially funds.
