Agenda Report

DATE: November 16, 2010

TO: The Mayor and City Council

FROM: Sean P. Quinn, City Manager
       Vince Webster, Fire Chief
       Morgana Yahnke, Fire Marshal

SUBJECT: An Ordinance of the City Council of the City of Fairfield amending Chapter 8 (Fire Protection) of the Fairfield City Code and adopting by reference Title 24, California Code of Regulations, Part 9 known as the 2009 California Building Standards Code, California Fire Code with amendments to reflect local conditions; and

Resolution concerning required findings relating to the adoption of the California Building Standards

RECOMMENDED ACTION
Hold public hearing; adopt resolution; and adopt ordinance.

STATEMENT OF ISSUE
The proposed amendments to Chapter 8 of the Fairfield City Code adopt the California Fire Code. They will update the existing city fire code to provide the City of Fairfield with the latest available building and life safety regulations, as mandated by the State Health & Safety Code.

DISCUSSION
In California, building codes are adopted on a three-year cycle. The State of California has adopted the 2009 International Fire Code with amendments specific to California and has titled the new version the 2010 California Fire Code. The California Fire Code becomes effective at the local level 180 days after State adoption (January 1, 2011). The State Health and Safety Code allows local jurisdictions to adopt amendments to the State Code.
DATE: November 16, 2010
SUBJECT: An Ordinance of the City Council of the City of Fairfield amending Chapter 8 (Fire Protection) of the Fairfield City Code and adopting by reference Title 24, California Code of Regulations, Part 9 known as the 2009 California Building Standards Code, California Fire Code with amendments to reflect local conditions; and

Resolution concerning required findings relating to the adoption of the California Building Standards

When a city makes local amendments (other than administrative changes) to the State Building Standards, it must make express findings that the amendments are reasonably necessary because of local climatic, geological or topographical conditions. The Health and Safety Code requires the city to submit those findings as a Resolution of Findings to the State Building Standards Commission.

Amendments and changes to the California Fire Code are codified in City Code Chapter 8 as follows:

Chapter 1 (Administration)

The amendments made to Chapter 1 were necessary to maintain our current administrative practices, such as fees, appeals and penalties.

Chapter 5 (Fire Service Features)

The amendments in Chapter 5 are intended to help clarify fire department access requirements for architects, developers and contractors. They specify items like roadway width, grade and turning radius as well as security gates and fire lanes.

Chapter 9 (Fire Protection Systems).

The amendments in Chapter 9 were needed to maintain Fairfield's existing automatic fire sprinkler requirements. Some minor changes were made to exempt specific occupancy types, such as small commercial businesses and accessory structures.

The remaining amendments were relatively minor and spread through several other chapters.

FINANCIAL IMPACT
None
DATE: November 16, 2010

SUBJECT: An Ordinance of the City Council of the City of Fairfield amending Chapter 8 (Fire Protection) of the Fairfield City Code and adopting by reference Title 24, California Code of Regulations, Part 9 known as the 2009 California Building Standards Code, California Fire Code with amendments to reflect local conditions; and

Resolution concerning required findings relating to the adoption of the California Building Standards

PUBLIC CONTACT/ADVISORY BODY RECOMMENDATION
Notification to Building Industry Association and local building contractors; posted in the City Hall lobby; and, printed twice in the Daily Republic.

ALTERNATIVE ACTION
No action. Without Council action, the California Fire Code becomes the City Fire Code on January 1, 2011 without the amendments specific to Fairfield. This would result in a significant reduction in local requirements concerning automatic fire sprinkler systems, fire department access and fireworks.

CITY OF FAIRFIELD

RESOLUTION NO. 2010 – 316

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF FAIRFIELD
CONCERNING REQUIRED FINDINGS RELATING TO THE ADOPTION OF THE
CALIFORNIA BUILDING STANDARDS

WHEREAS, California Health and Safety Code Sections 17958, 17958.5 and 17958.7 allow the City, by ordinance, to make modifications or changes to the California Building Standards Code and other regulations adopted pursuant to Health and Safety Code Section 17922; and

WHEREAS, the Health and Safety Code requires such changes be determined to be reasonably necessary because of local climate, geographical, or topographical conditions; and

WHEREAS, the Health and Safety Code required that the City, before making any modifications or changes make an express finding that each such modification or change is needed; and

WHEREAS, the Health and Safety Code requires such findings be made available as a public record and a copy of such findings be filed with the California Building Standards Commission; and

WHEREAS, the City Council hereby determines that the proposed ordinance establishes requirements greater than those set forth in the 2010 edition of the California Building Standards Code, Title 24, Parts 2 and 9, of the California Code of Regulations, as adopted by the City of Fairfield and set forth in the Fairfield City Code.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF FAIRFIELD,

Section 1: Pursuant to Health and Safety Code Sections 17958.7 and 18941.5(b), the Fairfield City Council hereby expressly finds that the adopted amendments to California Building Standards, Title 24, Parts 2, 2.5, 4, and 5, of the California Code of Regulations, are necessary for the protection of the public health, safety and welfare, due to the following local climatic, geologic or topographical conditions:

1. Average yearly rainfall for the City is approximately 18 to 20 inches. This rainfall normally occurs from October to April. During the summer months, generally, there is no measurable precipitation. Temperatures for this dry period average from 80 to 100 degrees Fahrenheit and are frequently accompanied by prevailing winds from the west or southwest. The average daytime wind speed in the summer is 15 to 20 mph, 25 to 35 mph winds are common, and storm winds can reach speeds of 40 to 50 mph. Many of the outlying residential areas of the City are located next to hilly open space areas covered with dry vegetation from May
through September. The dry climatic conditions and winds contribute to rapid spread of fire.

2. The City is located in Seismic Design Category ‘D’, a high-risk earthquake zone classification. Regional faults, which have been identified as having a possible impact on the City, include the San Andreas and Hayward faults. Locally, faults that could cause an impact on the City include the Green Valley, Cordelia, Kirby Hills, and Midland faults. The Green Valley fault has been identified as the most active local fault. Information from the California Division of Mines and Geology indicates possible acceleration of the movement along this fault line. Currently, the upper limits of the Cordelia fault are being re-evaluated to determine the level of seismic activity on this fault line. Within the next thirty (30) years, there is significant potential for a major earthquake that would impact the City. If the event is of sufficient magnitude, the City can expect considerable damage to buildings and infrastructure in addition to landslides in hillside areas. Congested traffic flow and fires accompany major earthquakes. During a major earthquake, fire department resources would be extremely taxed and the ability to respond to fires would be delayed.

3. Fairfield is bisected topographically by Interstate 80 and Interstate 680. As a result the City is divided into discrete districts. To travel between the districts, emergency vehicles must use freeway overpasses. Heavy traffic congestion on the City’s streets and freeway overpasses already acts as a barrier to timely response for emergency vehicles. In the event of an accident or overpass failure due to an earthquake, sections of the City could become isolated or response time could be sufficiently slowed so as to increase the risk or severity of injury or property damage.

Section 2: Therefore, the following amendments to the California Fire Code are necessary for the protection of the public health, safety and welfare due to local climatic, geologic or topographical conditions.

1. Chapter 3 General Precautions Against Fire: The amendments to Chapter 3 address the greater need to mitigate unsafe conditions, and control activities that can result in release of hazardous materials. These amendments are necessary to reduce the fire hazard due to prevailing high winds and the high potential for earthquakes in the City.

2. Chapter 5 Fire Service Features: The amendments to Chapter 5 of the California Fire Code address the greater need for emergency access in the City of Fairfield, necessitated by the City’s high risk of fire, prevailing high winds, earthquake risk, and difficulties in access caused by the bisection of the City by major highways.

3. Chapter 6 Building Services and Systems: The amendments to Chapter 6 relate to building systems and will enhance the system’s safety features helping to control a fire in the event of earthquake or delayed response.
4. Chapter 9 Fire Protection Systems: The amendments to Chapter 9 require that fire alarm and extinguishing systems be installed and maintained in all buildings with limited exceptions, and regulates certain commercial cooking systems. It also amends requirements for one-and two-family residential sprinkler systems. These amendments are necessary because of the high potential for earthquake and fire in the City and the potential for delayed emergency response because the City is bisected by major highways.

5. Chapter 33 Explosives and Fireworks: Section 3302 is amended to prohibit the use, sale, and discharge of fireworks in the City. This is necessary because the prevalence of dry vegetation and high winds in the City significantly increases the fire risk posed by fireworks.

6. Appendix B Fire Flow Requirements For Buildings, Exception: Section B105.2, Exception is amended to allow a reduction in fire-flow of up to 50 percent as approved by the fire code official. This is necessary because of the high potential for earthquake and fire in the City and the potential for delayed emergency response because the City is bisected by major highways.

7. Appendix D Fire apparatus Access Roads: The amendments to Appendix D of the California Fire Code address the greater need for emergency access in the City of Fairfield, necessitated by the City's high risk of fire, prevailing high winds, earthquake risk, and difficulties in access caused by the bisection of the City by major highways.

PASSED AND ADOPTED this 16th day of November, 2010 by the following vote:

City Clerk
CITY OF FAIRFIELD

ORDINANCE NO. 2010- 1

THE CITY COUNCIL OF THE CITY OF FAIRFIELD DOES ORDAIN AS FOLLOWS:

SECTION 1. Chapter 8, Article I of the Fairfield City Code is amended to read as follows:

"Article I. Fire Protection.

Sec. 8.1 Adoption of the California Fire Code.

It is hereby adopted, that for the purpose of prescribing regulations governing conditions hazardous to life and property from fire or explosion, that certain Codes and Standards known as the 2010 California Building Standards Code, Title 24, California Code of Regulations, Part 9 (California Fire Code), and by reference the 2009 International Fire Code published by the International Code Council, Inc., including Appendices Chapters 4, B, C, D, and H, save and except such portions as are deleted, modified or amended by Section 8.3 of this Code. Said Code is adopted by reference pursuant to Section 50022, et seq., of the Government Code of the State of California, and the same is hereby adopted and incorporated as fully as if set out at length herein and from the date on which the ordinance codified in this section shall take effect, the provisions thereof shall be controlling within the limits of the City of Fairfield.

8.2 Enforcement of the Fire Code.

The Fire Code shall be enforced by the Fire Chief or his or her designee.

8.3 Amendments, Additions and Deletions.

Notwithstanding the provisions of Section 8.1 of this Code, the following sections and appendices of the Fire Code are amended as follows:

Chapter 1

Administration

Chapter 1, Administration, is amended as follows:
Subsection 102.7.1 – Supplemental rules and regulations, is added to read as follows:

102.7.1 Supplemental Rules and Regulations. The fire chief is authorized to render interpretations of this code and to make and enforce rules and supplemental regulations in order to carry out the application and intent of its provisions. Such interpretations, rules and regulations shall be in conformance with the intent and purpose of this code and shall be available to the public during normal business hours. These rules and regulations shall be contained in the Fairfield Fire Department Prevention Standards, which shall hereinafter be referred to in this code as "Standards."

Subsection 103.3.1 - Fire Prevention Personnel and Police, is added to read as follows:

103.3.1 Fire Prevention Division Personnel and Police. The Fire Chief and personnel assigned to the Fire Prevention Division shall have the powers of a police officer in performing their duties under the following codes: California Fire Code, National Fire Codes, any fire or life safety sections of the California Building Code, Health and Safety Code, Public Resources Code, and other city, county, or state fire related laws or codes not specifically covered in any part of this code. When requested to do so by the Chief, the Chief of Police is authorized to assign such available police officers as necessary to assist the Fire Department in enforcing the provisions of this code.

Subsection 103.3.2 - Peace Officers, is added to read as follows:

103.3.2 Peace officers. The Chief is authorized to designate a member, or members, of the fire department as a peace officer as described in Section 830.37 of the California Penal Code who shall enforce the Penal Code and California Fire Code. These police powers include the issuance of citations (Notice to Appear), powers of arrest and detention, carrying and use of firearms.

Subsection 104.2.1 - Fees, is added to read as follows:

104.2.1 Fees. The Fire Chief may establish a schedule of fees, as approved by the City Council, to be charged and collected for plan checking, required inspection services, and for the issuance of permits pursuant to Section 105 of this Code. In addition, this schedule may include a fire service fee to be charged to any person, firm, corporation or business that through negligence, violation of the law or as a result of carelessness is responsible for the cause of any fire service response to the scene of such an incident. A copy of the fee schedule
shall be kept in the office of the City Clerk and the Office of the Fire Marshal and shall be available for public inspection.

Subsection 105.7 - Required construction permits, is amended as follows:

105.7 Required construction permits. The fire code official is authorized to issue permits for work as set forth in Chapter 1, Sections 105.7.1 through 105.7.15. Whenever any work for which a permit is required by this code has been commenced without first obtaining said permit, a penalty fee may be assessed in addition to the regular permit fees.

Subsection 105.7.15 - Security gates, is added to read as follows:

105.7.15 Security gates. A construction permit is required to install any gate, vehicular or pedestrian, that obstructs emergency access to a building or property.

Subsection 106.2.1 - Inspection requests, is amended to read as follows:

106.2.1 It shall be the duty of the permit holder to request an inspection not less than two business days before such inspection is desired. Such requests may be submitted to the fire code official via writing, telephone, or email.

Subsection 108.1 - Board of Appeals, is amended to read as follows:

108.1 Appeals. When it is claimed that the provisions of this code do not apply, or that the true intent and meaning of this code have been misconstrued or wrongly interpreted, the applicant may appeal the decision of the Chief of the Fire Department to the City Manager within 30 days from the date of the decision of the Chief of the Fire Department. The City Manager or his duly authorized representative shall be the hearing officer and his decision shall be final.

Subsections 108.2 and 108.3 shall be deleted in their entirety.

Subsection 109.3, Violation penalties and Subsection 109.3.1 are amended to read as follows:

109.3 Violation penalties. Persons who shall violate a provision of this code or shall fail to comply with any of the requirements thereof or who shall erect, install, alter, repair or do work in violation of the approved construction documents or directive of the fire code official, or of a permit or certificate used under provisions of this code, shall be guilty of either a misdemeanor, infraction or both as prescribed in Sections
109.3.1 and 109.3.2. Penalties shall be as prescribed in local ordinance. Each day that a violation continues after due notice has been served shall be deemed a separate offense.

109.3.1 Infraction. Except as provided in Section 109.3.2, persons operating or maintaining any occupancy, premises or vehicle subject to this code that shall permit any fire or life safety hazard to exist on premises under their control shall be guilty of an infraction.

Subsection 109.3.2 – Misdemeanor, is added to read as follows:

109.3.2 Misdemeanor. Persons who fail to take immediate action to abate a fire or life safety hazard when ordered or notified to do so by the chief or a duly authorized representative, or who violate the following sections of this code, shall be guilty of a misdemeanor:

103.4.3 Compliance with Orders, Notices and Tags
107.6 Overcrowding
104.11.2 Obstructing operations
104.11.3 Systems and Devices
111.4 Failure to comply
305.4 Deliberate or negligent burning
308.2.1 Throwing or placing sources of ignition
310.7 Burning Objects
2404.7 Sources of Ignition

Subsection 109.3.1 - Abatement of violation is renumbered to section 109.3.3 and shall have added thereto the following:

Cost of abatement is the responsibility of the property owner and steps to recover those costs will be taken, up to and including a lien against the property. Property owners shall be notified of any action taken as soon as possible.

Chapter 2
Definitions

SECTION 202 - General Definitions, is amended by amending/adding the following definitions:
ALTERATION - Any change or renovation to an existing structure other than a repair or addition. Alterations include, but are not limited to, the addition or elimination of walls within the existing building envelope and any modification to the structure that involves removal and replacement of finished wall surfaces.

FIRE AREA - For the purpose of calculating square footage for application of fire sprinkler requirements, the fire area shall include all combustible areas attached to the structure.

FIRE BREAK - A continuous strip of land, devoid of flammable vegetation, intended to prevent the spread of fire from one area to another.

FIRE TRAIL - An approved access road, including any concrete-lined erosion control or drainage ditch that allows fire personnel and equipment to suppress and prevent a surface extension of fire. Such trails shall be a minimum of 16 feet wide and shall not exceed a gradient determined to be unsafe by the Fire Chief. Such trails shall be kept clear of all debris and maintained so that dry grass or weeds do not exceed 4 inches in height.

TEMPORARY - Any use for a period of less than 90 days.

Chapter 3
General Precautions against Fire

Subsection 304.1 - Waste Accumulation Prohibited is amended by adding the following:

All properties shall be maintained in accordance with Chapter 23 of the Fairfield City Code - Weeds and Rubbish and with Fairfield Fire Prevention Standard 95-45 - Vegetation Management.

SECTION 307 - OPEN BURNING, RECREATIONAL FIRES AND PORTABLE OUTDOOR FIREPLACES, is amended to add Subsection 307.6 as follows:

307.6 Materials. All materials used for bonfires, recreational fires, or in portable outdoor fireplaces shall be clean, uncontaminated wood, manufactured wood logs, or other such approved materials. Unapproved materials include, but are not limited to, contaminated wood, waste construction materials, garbage, yard waste and leaves, or other such materials that produce offensive or objectionable smoke emissions, and are prohibited from use.
SECTION 318 - UNATTENDED VEHICLES, is added to read as follows:

SECTION 318 UNATTENDED VEHICLES. It shall be unlawful for anyone to leave unattended any vehicle loaded with: hazardous materials (as defined in Section 2402.7 CVC), explosives, cryogens, compressed gas, flammable or combustible liquids in excess of 60 gallons, (not including fuel tank for engine) within 2,000 feet of any residential or commercial area or any other area that is deemed unsafe in the opinion of the Fire Chief.

Chapter 5

Fire Service Features

Subsection 503.1.2 Additional access. Subsection 503.1.2 is amended to add Subsection 503.1.2.1 as follows:

503.1.2.1 Access to open spaces. When access to open land/space or fire trail systems maintained for public or private use is obstructed by development of any kind, the developer/property owner shall provide alternate acceptable access into the area(s), as approved by the fire code official, for fire personnel and apparatus. The developer/property owner shall be responsible for maintaining this access in drivable condition at all times.

Subsection 503.2 Specifications. Subsection 503.2.4 is amended as follows:

503.2.4 Minimum turning radius. A fire department access road shall have a minimum standard turning radius of 28 feet (8.5 m) inside and a 48-foot (14.6 m) outside diameter.

Subsection 503.2.7 Grade. Subsection 503.2.7 is amended as follows:

503.2.7 Grade. Fire department access roads shall have a maximum grade of 15% in accordance with City of Fairfield Public Works Standards relating to public streets.

Subsection 503.3 - Marking is amended by adding the following:

All markings shall be in accordance with Fairfield Fire Prevention Standard 92-40 - Designated Fire Lanes.

Subsection 503.4 Obstruction of fire apparatus access roads is amended to add Subsection 503.4.1 as follows:
503.4.1 - Speed control devices. Speed bumps, dips, bollards or similar devices are prohibited in any public or private fire apparatus access road without written approval of the Fire Chief or his designee.

Subsection 503.6 - Security gates is amended by adding the following: Vehicular access gates or barriers shall be in accordance with Fairfield Fire Prevention Standard 95-44 - Access Gates.

SECTION 505 - PREMISES IDENTIFICATION is amended as follows:

Subsection 505.1 - Address numbers, is amended to add the following: Any business which affords vehicular access to the rear through a driveway, alleyway, or parking lot, shall also display the building identification or address numbers on the rear of the building. Address numbers shall be in accordance with Fairfield Fire Prevention Standard 87-7 - Building Identification.

SECTION 505 PREMISES IDENTIFICATION is amended to add Subsection 505.3 as follows:

505.3 - Multi-family dwellings. At the main entrance driveway to each newly constructed multiple dwelling complex there shall be positioned an illuminated diagram (map) of the complex that lists all individual addresses of each unit in the complex. The design and location of the map shall be approved by the fire marshal.

SECTION 506 - KEY BOXES, is amended to add subsection 506.3 as follows:

506.3 Business Plans. Facilities that are required to submit hazardous materials business plans may be required to install an approved document storage cabinet in a location approved by the fire code official.

Chapter 6

Building Services and Systems

Subsection 606.10.1.2 - Manual operation, is amended by adding the following:

The manual valves shall be located in an approved location immediately outside of the machinery room, in a secure metal box and marked as Emergency Controls.
Chapter 9

Fire Protection Systems

Subsection 903.2, Where required, is amended in its entirety as follows:

903.2 Where required. An automatic fire extinguishing system shall be installed and maintained in all buildings hereinafter constructed with the following exceptions:

1. A single story structure with a maximum area of 2,000 square feet with a B, M, or U type occupancy not requiring a fire permit.

2. Group R3.1 occupancies not housing bedridden clients, not housing non-ambulatory clients above the first floor, and not housing clients above the second floor.

Subsections 903.2.1, Group A, through Subsection 903.2.11.3., Buildings 55 feet or more in height, are deleted.

Subsection 903.3.5.1, Domestic services, is amended as follows:

903.3.5.1 Domestic water services shall only be used to supply NFPA 13D automatic sprinkler systems.

Subsection 903.3.5.1.1, Limited area sprinkler systems, is deleted in its entirety.

Subsection 903.5.1.2, Residential combination services, is deleted in its entirety.

Subsection 903.4, Sprinkler system monitoring and alarms, exceptions #2, #3 and #4 are deleted.

Subsection 903.4.1, Monitoring, exception #2 is deleted.

Subsection 903.6, Existing buildings, is amended as follows:

903.6 Any existing building which was not required to be protected by an automatic fire sprinkler system, according to codes in effect at the time of its construction, shall have installed throughout the building, in accordance with NFPA 13, an automatic fire sprinkler system whenever any of the following conditions are met:

1. Alterations, repairs or remodels. When the floor area of an alteration, repair or remodel exceeds 50% of the gross floor area of the existing building.
2. Additions. When the floor area of the addition shall increase the gross floor area of the existing building by 50%.

3. Change of occupancy. When there is a change in occupancy type, use or character of the building that results in an increased life safety or fire risk as determined by the Fire Chief.

Subsection 907.7.5 - Monitoring is amended by adding subsections 907.7.5.3 and 907.7.5.4 as follows:

907.7.5.3 Listing of fire alarm systems. All fire alarm systems shall be UL listed Central Station service systems as defined by the National Fire Alarm and Signaling Code.

907.7.5.4 Certification. Fire alarm systems shall be UL Certified and a Certificate of Completion and other documentation listed in Chapter of the National Fire Alarm and Signaling Code shall be provided for all new fire alarm system installations.

Chapter 33
Explosives and Fireworks

Subsection 3302 is added to read as follows:

Prohibition. The use, sale and discharge of fireworks are prohibited.

1. Findings. The City Council finds that the sale, use and/or discharge in the City of Fairfield, whether classified as "dangerous fireworks" and/or "safe and sane fireworks" (pursuant to Health and Safety Code Sections 12500 et seq.), will endanger life and property, and may encourage the use and/or discharge of fireworks in neighboring jurisdictions where their sale, use and/or discharge are prohibited unless prohibited and/or regulated as set forth in this chapter.

2. Definitions. Any and all terms used in this chapter shall have the same meaning as defined in Health and Safety Code Section 12500 et seq. and shall govern the construction of this chapter.

3. Applicability of State Law. This chapter does not supersede State law, but is intended to supplement the provisions of Division 11, Part 2, of the Health and Safety Code (Sections 12500 et seq.) and the administrative regulations adopted pursuant to law, and to prohibit and/or regulate by local authority, as authorized by Health and Safety Code Section 12541, the sale, use, and/or discharge of fireworks in the City.
4. Sale, Use, Possession and/or Discharge Prohibited. No person or organization shall sell, use, possess and/or discharge in the City any fireworks, including, but not limited to, dangerous fireworks and safe and sane fireworks subject to the following exceptions:

1. A public display of fireworks, including, but not limited to, dangerous fireworks and safe and sane fireworks in the City provided that the person or organization is properly licensed and strictly complies with all applicable provisions of this chapter, all regulations adopted by the Fire Chief, all City resolutions and ordinances, all provisions of the Health and Safety Code, and receives authorization of the fire code official for the public displays of fireworks.

2. Any special item containing pyrotechnic compositions which the State Fire Marshal, with the advice of the State Advisory Board, has investigated and determined to be limited to industrial, commercial, agricultural use, or religious ceremonies when authorized by a permit granted by the fire code official and is classified as "exempt fireworks" in the Health and Safety Code.

Appendix B

Fire Flow Requirements for Buildings

Appendix B is adopted with the following modifications:

Subsection B105.2 Buildings other than one- and two-family dwellings, Exception 1 is amended as follows:

1. A reduction in fire-flow of up to 50 percent, as approved by the fire code official, is allowed when the building is provided with an approved automatic sprinkler system installed in accordance with Section 903.3.1.1 or 903.3.1.2. The resulting fire-flow shall not be less than 1,500 gallons per minute (5677.5 L/min) for the prescribed duration as specified in Table B105.1.

Appendix D is adopted with the following modifications:

Subsection D103.2 Grade is amended as follows:

D103.2 Fire apparatus access roads shall not exceed 15 percent in grade.

Subsection D103.6 Signs is amended as follows:

D103.6 Where required by the fire code official, fire apparatus access roads shall be marked with permanent NO PARKING – FIRE LANE
signs complying with Fairfield Fire Prevention Standard 92-40 - Designated Fire Lanes.

FIGURE D103.1 and TABLE D103.4 are amended to remove the references to the diameter of residential cul-de-sacs.

SECTION 2. This Ordinance shall be effective January 1, 2011.

SECTION 3. A summary of this Ordinance shall, within fifteen (15) days after passage, be published in accordance with Section 36933 of the Government Code of the State of California with the names of the City Councilmembers voting for and against it.

INTRODUCED at a regular meeting of the City Council of the City of Fairfield on the 2nd day of November, 2010, and

PASSED AND ADOPTED this 16th day of November, 2010, by the following vote:
